Summary

I'm an ambitious self-taught front-end developer from Novi Sad. I enjoy making beautiful websites using HTML, CSS, PHP, JavaScript and jQuery. My code is always clean, maintainable & cross-browser friendly. My current passion is delving further into JavaScript, with a particular focus on ReactJS.

Work experience

Magento Website Administrator 2017 - Present

For blicshop.rs and energybatteryshop.rs

- Maintain integrity of product catalog and make updates
- Manage product types, categories, names, SKUs, attributes, pricing (regular, tier, special, or group pricing), photos, descriptions, inventory.
